

PSNC Energy, A SCANA Company, is a regulated public utility engaged primarily in purchasing, transporting, distributing and selling natural gas to approximately 500,000 customers throughout a 28-county service area in north central and western North Carolina. This Service Department position is located in PSNC Energy's Apex Operations Center. The Service Department is responsible for providing safe, customer-focused installation and maintenance of natural gas appliances, meters and other company facilities.

The Installation Specialist is responsible for assisting in the installation of natural gas appliances, meters and facilities in an efficient and safe manner while achieving excellent customer service. Computer Aided Dispatch (CAD) is utilized to distribute and route work orders to computers mounted in company vehicles. Duties include installing natural gas appliances, lighting gas pilots on residential and/or commercial appliances, completing minor appliance repairs, calibrating tools, cutting, threading, and joining pipe, running copper tubing, hand digging ditches, operating a walk-behind trencher, safely driving a Company vehicle, and completing appropriate paperwork. Applicants must feel comfortable working in enclosed areas such as crawl spaces, basements, and attics. Some work is performed on elevated areas such as roofs. Work requires utilization of ladders, scaffolding, and lifts. Some work may be performed in varying weather conditions. This challenging and rewarding position includes serving as an emergency responder and after-hours on-call work. Some heavy lifting up to 70 lbs. is required.

The successful candidate will possess a High School diploma or GED (from a high school accredited by an organization that is recognized by the Council for Higher Education Accreditation or one of the entities recognized by the U.S. Department of Education), a valid driver's license, a good mechanical aptitude including experience with common hand and power tools, effective communication skills for interactions with customers and local emergency response personnel, and a willingness to work with others in a team environment. The ability to learn safety, Red Tag and hazardous conditions procedures, and a willingness to work in varying weather conditions is also required. Applicants must have the ability to use and comprehend mathematical calculations and formulas. Basic computer skills are preferred. Availability for natural gas emergency response after normal working hours is a must. Applicants must reside within a 45 minute response time from the geographical center of the Apex Area. Bilingual candidates are preferred.

Employees of SCANA Corporation enjoy a challenging environment and a wide range of competitive benefits. Benefits include paid holidays and vacation days; comprehensive medical and dental insurance coverage; group life insurance; credit union membership; and short-term/long-term disability coverage (or as described in the collective bargaining agreement for union employees).

Interested candidates should apply online at WWW.PSNCENERGY.COM under Careers from Friday, April 7, 2017 – Sunday, April 23, 2017.

SCANA and its subsidiaries are equal opportunity, affirmative action employers. Our jobs are open to all applicants regardless of race, color, sex, gender, sexual orientation, age, religion, national origin, marital status, pregnancy, disability, military status, or any other basis prohibited by federal, state, or local law.
